Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance:

A multilayer circuit comprising the combination of:

- A first metallization layer
- Circuit components disposed on the first metallization layer selected from discrete semiconductor components and integrated circuit chips
- A second metallization layer, a portion adapted for operation as a ground plane
- A dielectric substrate layer disposed between the first and second metallization layers
- A plurality of conductive vias extending through the dielectric layer, first and second metallization layers and electrically connecting portions of the first and second metallization layers;
- An interior surface of the conductive vias having a central portion substantially free of electrically conductive material
- The multilayer circuit being a flexible circuit
- The multilayer circuit being a microwave or mm-wave circuit

As detailed in claims 1 and 5 have not been found.

Claims 23-43 continue to be allowable for the reasons made of record in the Office Action mailed April 11, 2003.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
